Networking Academy

Certificate of Course Completion

Princess Genevieve Sagrado

has successfully achieved student level credential for completing the **Industrial Cybersecurity Essentials** course.

The student was able to proficiently:

- Explain the importance of cybersecurity in Industrial IoT environments.
- Analyze common cyberattack concepts and techniques used against industrial control systems (ICS).
- Explain why it is important to comply with security standards and compliance frameworks such as IEC 62443 and NIST SP 800-82r3.
- Explain the impacts of exploitation of common ICS vulnerabilities and strategies for mitigation.
- Evaluate security risks in industrial systems using risk assessment tools and methodologies.
- Implement secure industrial network architectures, including segmentation and firewall configuration.
- Implement local and remote access control to secure industrial networks.
- Explain techniques for hardening the industrial network Infrastructure.

Certificate of Course Completion

Princess Genevieve Sagrado

has successfully achieved student level credential for completing the ***Industrial Networking Essentials*** *course.*

The student was able to proficiently:

- *Understand hierarchical network design and its role in industrial architectures.*
- *Recognize the importance of standards and protocols for reliable network communications.*
- *Identify and describe network types, components, media, and connections.*
- *Explain the role of multiple network devices in industrial networks.*
- *Explain wireless communication in IT and OT integrated settings.*
- *Describe Ethernet network communication and VLANs.*
- *Explain the importance of effective IP addressing in ensuring efficient network communication.*
- *Explain client access to services and application layer functions.*
- *Describe application layer protocols in the Industrial Internet of Things (IIoT).*
- *Demonstrate the ability to perform basic configurations on Cisco industrial devices.*

Certificate of Course Completion

Princess Genevieve Sagrado

has successfully achieved student level credential for completing the **Network Defense** *course.*

The student was able to proficiently:

- *Use cybersecurity concepts to document a network security posture.*
- *Configure security measures on network devices and Linux and Windows endpoints.*
- *Implement phases of identity lifecycle management.*
- *Configure a simulated network firewall.*
- *Recommend cloud security measures given a scenario.*
- *Determine the appropriate data protection mechanism to ensure secure transport and storage of network data.*
- *Explain how the public key infrastructure (PKI) is used to enhance data security.*
- *Implement virtual computing environments.*

ICT LITERACY AND COMPETENCY DEVELOPMENT BUREAU

BAGONG PILIPINAS

CERTIFICATE

OF COMPLETION

THIS CERTIFIES THAT

PRINCESS GENEVIEVE SAGRADO

HAS COMPLETED

DICT-WD002 Using HTML and CSS to Design a Website

By the Department of Information and Communications Technology through the DICT-LMS on **October 13, 2024**

Training Hours: **8**

MINA LYN C. PERALTA
OIC - Director III
ICT Literacy and Competency Development Bureau

Control Number: 73937ca5-a521-47b3-8635-0914fe362618

Certificate of Course Completion

Princess Genevieve Sagrado

has successfully achieved student level credential for completing the CCNA: Switching, Routing, and Wireless Essentials course.

The student was able to proficiently:

- *Configure VLANs and Inter-VLAN routing applying security best practices.*
- *Troubleshoot inter-VLAN routing on Layer 3 devices.*
- *Configure redundancy on a switched network using STP and EtherChannel.*
- *Explain how to support available and reliable networks using dynamic addressing and first-hop redundancy protocols.*
- *Configure dynamic address allocation in IPv6 networks.*
- *Configure WLANs using a WLC and L2 security best practices.*
- *Configure switch security to mitigate LAN attacks.*
- *Configure IPv4 and IPv6 static routing on routers.*
