

Princess Genevieve Sagrado

Frontend React Developer

p.gene.sagrado@gmail.com | LinkedIn | GitHub | Portfolio

Professional Profile

Frontend React Developer with hands-on experience building and maintaining **production-grade web and mobile applications** using React, Next.js, and React Native. Experienced in developing **admin dashboards, data-driven interfaces, and CMS-powered platforms**, with strong expertise in third-party API integrations such as Stripe and Contentful. Adept at collaborating with designers and backend teams to deliver scalable, maintainable, and user-focused frontend solutions.

Technical Competencies

Programming & Frameworks

React, Next.js, React Native (Expo), JavaScript, TypeScript

Web Technologies & State Management

HTML, CSS, REST APIs, Context API, Redux

UI Libraries & Design Systems

Tailwind CSS, ShadCN UI, Material UI, Figma

CMS, Payments & Integrations

Contentful CMS, Stripe API

Version Control & Deployment

Git, GitHub, Bitbucket, Vercel, Netlify

Professional Experience

Frontend Developer – Freelance Web & Mobile App Team

November 2024 – Present

- Designed and implemented responsive, production-ready **web and mobile user interfaces** using React, Next.js, and React Native.
- Developed **admin and user portals** with role-based access control, improving internal workflows and system usability.

- Integrated **Contentful CMS**, enabling scalable and non-technical content management.
 - Implemented secure **Stripe payment workflows**, supporting online transactions and subscription-based features.
 - Integrated REST APIs to enable real-time data synchronization between frontend and backend systems.
 - Collaborated with designers and backend developers to ensure UI consistency, performance, and maintainability.
-

Web Developer – Wela Online Corp.

February 2024 – September 2024

Cagayan de Oro, Philippines

- Developed and maintained **live production web applications**, following frontend best practices and clean code standards.
 - Integrated backend services and APIs, translating functional requirements into reliable frontend implementations.
 - Collaborated closely with UI/UX designers to ensure accurate design-to-code translation.
 - Supported application scaling, performance optimization, and feature enhancements for existing systems.
 - Participated in debugging, maintenance, and continuous improvement of deployed applications.
-

Selected Projects & Contributions

Vintage Associates – Web Investment Platform

Frontend React Developer

- Developed a web-based investment platform allowing users to **buy, sell, and manage wine assets**.
- Built responsive and performant interfaces using React and Next.js.
- Integrated real-time APIs and supported continuous feature enhancements.

Vintage Associates – Mobile Application

Frontend React Native Developer

- Developed the mobile version using React Native (Expo), ensuring **feature parity with the web platform**.
- Integrated APIs and optimized performance for smooth, responsive mobile interactions.

Vintage Associates – Admin Dashboard

Frontend Developer

- Built an admin portal for managing **users, clients, wine assets, and events**.
- Implemented CRUD operations, notifications, and event management features.

Vintage Affiliate

Frontend Developer

- Built an affiliate portal for managing partners, referrals, and commission structures.
- Implemented dashboards, reporting views, and CRUD workflows for tracking affiliate performance.

Green Future – Monitoring & Analytics Platform

Frontend Developer

- Developed dashboards, data tables, and visualizations for system monitoring and analytics.
- Contributed to ongoing maintenance, UI improvements, and frontend stability.

Education

Bachelor of Science in Information Technology

University of Science and Technology of Southern Philippines (USTP – CDO)

Graduated: July 2024

GPA: 1.800

Certifications

- **CCNAv7: Switching, Routing, and Wireless Essentials** – Cisco (March 2023)
- **DICT-WD001:** Principles of Web Development & Introduction to HTML – DICT (October 2024)
- **DICT-WD002:** Using HTML and CSS to Design a Website – DICT (October 2024)
